INVESTING IN KC

INfiltration and Inflow Reduction
Blue River South Areas 1 & 2 Project

Construction Occurring August 2015 - June 2017
WHAT?
• Construction to rehabilitate sewer lines.

WHY?
• Rehabilitate the aging sewer system.
• Reduce the risk and frequency of sewer overflows.
• Reduce the amount of excess water getting into the sewer system.
• Meet regulatory requirements with Consent Decree.

WHEN?
• Construction will begin in August 2015 and is expected to be complete by June 2017.

WHAT?
• Temporary street closures.
• Temporary sewer service disruption.
• Residents will be notified in advance of when disruptions will occur.
• Trenchless technology will be used whenever possible to reduce the need for open trench excavation.

WHO?
• Kansas City Water Services assisted by George Butler Associates (GBA) and Havens Construction.

WHERE?
The project is located in Kansas City, Missouri within the following boundaries:
• Northern boundary - 85th Street
• Southern boundary - 137th Street
• Eastern boundary - Blue Ridge Boulevard
• Western boundary - Wornall Road

WHAT TO EXPECT?
• Repair sewers where they are deteriorating to like-new condition.

CONTRACT AMOUNT
Amount includes contracts for construction and design professional services.
• $12,650,000
