INVESTING IN KC

NEIGHBORHOOD SEWER REHABILITATION

Brush Creek Project Area 1

NEIGHBORHOOD SEWER REHABILITATION

Brush Creek Project Area 1

WHAT?
- Important field investigations of the sanitary collection system in your area.

WHY?
- Investigate the existing sewers to determine locations of needed sewer repairs.
- Reduce risk and frequency of sewer overflows and basement backups.
- Rehabilitate the aging sewer system.
- Meet regulatory requirements as part of KC’s Overflow Control Program.

WHEN?
- Field investigations will be ongoing July 2015 through December 2015.
- Design professional services will be conducted from July 2015 to November 2016.
- Construction will occur between May 2017 and May 2019.

WHO?
- KC Water Services assisted by Alfred Benesch & Company, Environmental Advisors & Engineers, SE3, and Tetra Tech.

WHERE?
- The project is located within the following boundaries:
  - Northern boundary - 31st Street
  - Southern boundary - Swope Parkway
  - Eastern boundary - Chelsea Avenue
  - Western boundary - Main Street

IMPROVEMENTS?
- Current activity includes identifying needed sewer rehabilitation repairs.

WHAT TO EXPECT?
- Various field crews inspecting manholes and cleaning the public sewer lines.
- Smoke from smoke testing activities.
- Temporary street closures.
- Public meeting to inform property owners about the field investigations and project schedule.
- Crews may knock on the door if they need to inspect the sewer or manholes on your property.
- Crews will not ask to enter your home or building.

CONTRACT AMOUNT
- Design professional services contract includes all services rendered through the construction phase of the project.
- $1,650,000
